

Lasertec is proud to announce their latest partnership with the Wisconsin Credit Union League as an endorsed vendor for their statement delivery solution to the credit unions in the state of Wisconsin.

Lasertec brings a unique aggregated pricing model to credit unions in Wisconsin. This pricing model allows for small and mid-sized credit unions to receive pricing usually reserved for the largest credit unions.

The aggregation of all Wisconsin credit unions into one pricing pool results in a price point where even the largest credit unions should realize a cost savings. The pricing model will be adjusted monthly as more credit unions join the program.

If you have any questions regarding this exciting news please contact Tony Wilhelm at 800-388-5832 or twilhelm@lasertecinc.com.
