

**Lasertec is Going Green!**

August 5, 2010: Lasertec is proud to announce that we are **GOING GREEN!**

Thanks to several of Lasertec's Team Members (Todd M., Kelly C., Ben D., Chad N., Marc G., Cheryl W., Ken H., and Theresa J.) we are now recycling our waste paper, skids, and cardboard boxes! Several of these items are used each month in our production runs.

Over the past month or so, the above Team Members researched a facility that Lasertec can bring our excess trash to be recycled. We are very proud to provide an eco-friendly operation that coincides with business growth!
