

LASERTEC, INC. NAMED ONE OF AMERICA'S FASTEST-GROWING PRIVATE BY INC. MAGAZINE TWO YEARS IN A ROW!

August 24, 2011: *Inc.* magazine has placed Lasertec, Inc. on its Fifth Annual Inc. 5000 List, an exclusive ranking of the nation's fastest-growing private companies. This list represents the most comprehensive look at the most important segment of the economy - America's independent-minded entrepreneurs.

"The entrepreneurs on the Inc. 500 - and beyond them, those on the Inc. 5000, and beyond them, the millions of Americans starting and managing young companies - are providing the jobs, the momentum, and, perhaps most important, the optimism to shoulder our wheel-spinning economy out of the mire." said Inc. Editor, Leigh Buchanan.

Lasertec was founded in 1986 as a subsidiary of a national technology company in Auburn Hills, Michigan. Originally, Lasertec was formed to provide high-speed laser printing and mailing to financial service companies throughout the country. Now Lasertec offers services to many industries. They proudly partner with their customers across the U.S, by providing high quality print and electronic customized statements, invoices, notices, tax forms, target marketing, graphic design, and selective inserting. Lasertec's 3-year 18% growth is proof of these lasting partnerships.

Of this year's Inc. 500 honorees, 488 added jobs from 2007 to 2010. Collectively, they generated 35,823 jobs over three years. The companies in the Fortune 500, by contrast, eliminated 821,000 jobs in 2009 alone, despite buoyant profits.

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found on www.inc.com/5000.
